ABOUT US

The Association of Wood Processors of Kosovo (AWPK) was established in 2004. The AWPK is a nonprofit organization for companies in the wood processing sector. The role of the AWPK is to support these companies, and advocate on their behalf at legislative and regulatory levels.

The AWPK promotes the interests of the wood processing companies of Kosovo. The AWPK supports these companies to expand networking with local and international businesses, improve products and quality, upgrade technologies, and increase productivity, with the ultimate focus of increasing exports.

MISSION

- Promote made in Kosovo wood products
- Identify potential foreign clients and business partners
- Increase membership and support our members with participation in international fairs, business missions, meetings and B2B events
- Provide professional training for the industry existing and future workforce
- Offer guidance to Kosovo manufacturers and help them be competitive in the international and local markets
- Assist companies in following global and modern trends in their sector
- Give them the necessary support in establishing themselves as well-known brands.

KOSOVA MODEL

Kosova Model Company was founded as a business by Ajet Sopaj in 1968 in the village of Mollopolc, in the Shtime municipality. At that time, operations were conducted with combined machinery and a staff of four workers, with the primary focus on manufacturing solid wood doors and windows. In the 1980s, the company relocated to Koshare in Ferizaj. Today, Kosova Model extends over approximately 10,000 square meters, and the factory itself has five production lines: the door production department, the window department, the furniture department, the kitchen department, and the glass department. Additionally, the showroom area for products is 6,000 square meters. Since 2008, Kosova Model has been exporting to the European market as well. The company's main strategy relies on implementing the latest design trends through sophisticated machinery and a professional staff. Currently, the company employs around 90 workers, including women in both the production and administration sectors.
